

# Attach volume [Info](#)

Attach a volume to an instance to use it as you would a regular physical hard disk drive.

Basic details

Volume ID

vol-06b9b84668b6cec3b

Availability Zone

us-east-1c

Instance [Info](#)

i-08bed41d6df78741b

(mywebserver) (running)

⌂

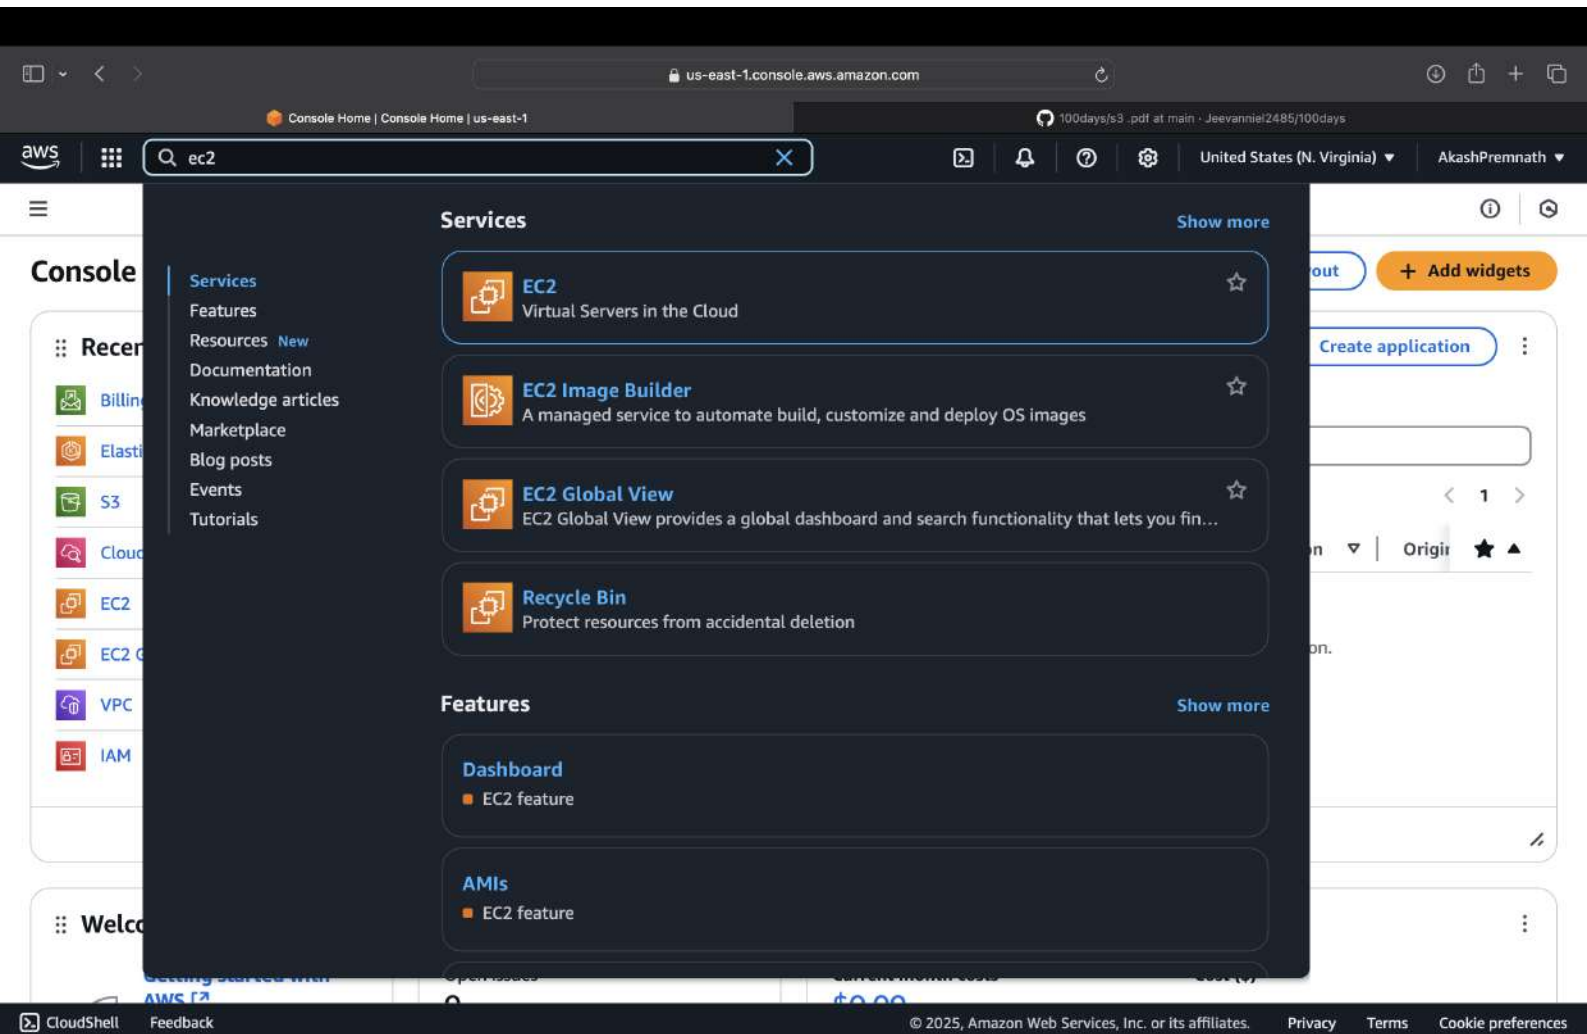

Device name [Info](#)

Select a device name

Only instances in the same Availability Zone as the selected volume are displayed.

Newer Linux kernels may rename your devices to `/dev/xvdf` through `/dev/xvdp` internally, even when the device name entered here (and shown in the details) is `/dev/sdf` through `/dev/sdp`.
